## PREFATORY NOTE.

The publication of this calendar of the manuscripts of Col. John Bradstreet in the Library of this Society follows the precedent set by the issuance of a similar list in 1907 for the manuscripts of Sir William Johnson. It is a further step in the policy of describing some of the original autograph material for the study of American history which is here available.

Born in England in 1711, John Bradstreet spent the greater portion of his life in America. From 1745 when he participated in the Louisburg campaign he was active in maintaining British control in the colonies. His death in 1774 prevented the necessity of his taking sides in the struggle for American independence and left him to share with Sir William Johnson who died in the same year, the credit of a vigorous opposition to the interests of the French in America. If his judgment was not equal to his activity, his work well illustrated British policy in America during the period immediately preceding the outbreak of the American Revolution.

The collection here calendared comprises six volumes of Diaries, Orderly Books etc., and one volume of over 300 letters and other detached manuscripts. Each of the former volumes may be considered a collection in itself but their character is such as to preclude their division for listing purposes and each has been given but a single entry. In the exercise of a similar discretion the less important of the detached manuscripts have been combined when practicable and in other cases omitted, making a resultant calendar of but 206 entries. Although this method of treatment has necessitated the loss of many details the calendar remains a representative one in that it presents the essential features of the entire collection.

The manuscripts consist primarily of the accounts and military papers of Colonel Bradstreet when Quarter-Master

General at Albany, or when in command of the expeditions against Frontenac in 1758 and Detroit in 1764. They illustrate the difficulties attendant upon the gathering, sustaining and commanding Provincial troops at that time. Colonial jealousies are shown and many letters throw light upon the character of Bradstreet the man as well as the officer. As an appendix to the calendar there has been printed the argument, presented to the Lords of Trade and Plantation in 1771, upholding Bradstreet's claims to lands purchased from the Indians in 1769. This argument presented in substantially the same form to the Governor and Council of New York in 1770, and used again in England in 1773, states the ground upon which the Bradstreet grants of land in this State were, after a long contest, finally sustained. Occasional reference has been made to helpful manuscripts in the Sir William Johnson collection and this calendar may be profitably used in conjunction with the earlier issue.

THE CLAIMS OF  
COL. JOHN BRADSTREET  
TO  
LANDS IN AMERICA.

## NOTE.

---

Few Colonial land titles in America have been contested with more vigor than that of Col. John Bradstreet to certain Indian lands within the limits of the present state of New York. Interfering as it did with claims under the Hardenbergh patent of 1706, Bradstreet's title was as aggressively opposed as it was ardently maintained, both in the colony of New York and at the Court of Great Britain. A summary of the action taken upon the Bradstreet claim will not be amiss as an introduction to the argument by which it was supported.

So far as the native title was concerned, Bradstreet's claim originated in an Indian deed of October 29, 1768, and was completed by the acceptance of the deed and the payment of the purchase money in the following year. On presenting a petition for a patent from the Government in May, 1770, Bradstreet was at once opposed by the Hardenbergh proprietors; following which the Council of New York on May 30, 1770, directed Bradstreet to serve a copy of his petition and the order taken thereon upon the Hardenbergh proprietors with a summons to them for July 4, to show cause why his prayer should not be granted. After some delay, Dec. 10 was assigned for the argument of counsel for the Bradstreet claim and on that date the major portion of this argument, printed upon the following pages, was presented. In opposition to Bradstreet's claim which held the earlier patent invalid and its construction strained, counsel for the Hardenbergh proprietors presented their case on Feb. 5, 1771, following which the Bradstreet argument was concluded. Further evidence was given on March 11 and 18, and on the 20th of the same month a grant of 20,000 acres was made by the Council to Bradstreet.

Upon reference of both petition and grant to the British authorities for their formal approval this action was on June 5,

1771, declared illegal, the home government holding that the New York Provincial Council lacked power to decide upon the petition. The letter of Lord Hillsborough giving this decision aroused the Council and on August 14 that body made a report at length in answer to Hillsborough maintaining the powers of the province.

As a result of this additional contest the validity of the Bradstreet claim remained unsettled for two years. The discussion was transferred to England and not until August 31, 1773, was the petition granted once more by the Council of New York. The death of Bradstreet in the following year left the claim to his heirs for final settlement with the later state of New York.

The manuscript as printed on the following pages gives in full the argument of Bradstreet's counsel, those portions being noted which were added before presentation in England. So far as known, no other copy of Bradstreet's argument exists in this country, and the commissioners from New York appear to have found nothing of the character when transcribing in England the manuscripts there filed relating to the Colonial history of New York. It is here printed as a good illustration of the vagueness with which land grants were described and the character of the arguments by which they were maintained during the Colonial period of American history.

## THE ARGUMENT.

---

*May it please your Lordship & the Honorable Board:—*

There is perhaps no Tribunal at which Declamation will less succeed than at this Honorable Board. When Judges are of a Rank superior to those Emotions which in vulgar Minds usurp the place of Reason the Orator cannot expect to bear his blushing Honors thick upon him. The Weight of Evidence the Energy of Argument will command Attention & the plain Road of Common Sense will lead to conviction while the flowery Path of Rhetoric remains neglected and untrodden. Had those Sentiments been adopted by the Gentlemen who spoke agt us much Time unnecessarily spent might have been Excused and were it not that the Matter in Controversy is of very great importance to the Crown & my Claim I should have saved your Lordship & this Board the Trouble of attending to this Reply. The Gentlemen who oppose us have endeavoured to support such an Extension of the Patent to Joh<sup>l</sup>[annes Hardenbergh as is opposed to] the Right of the Crown and Deprives my Client & his Associates of the Benefit of an Indian pact Regularly obtained and of the [advantage] of his Majesty's Letters patent for the Lands in Controversy. And as at the opening of this [Controversy] it was made a Question whether Col. Bradstreet is entitled to the Grace of the Crown even were the Lands vacant. I shall in the Course of this Reply—

First shew that he is in a Situation [which] entitles him to ask that Grace and Secondly, that there is room for contending if the Patent to Hardenbergh and others be justified [it should be restricted] within proper bounds. And as to the first point my Lord<sup>2</sup>—

According to the Regulation that has for some Years existed First Set of Proofs. no purchase can be made of the Indians but by the Govr. or Commander in Chief for his Majesty's use at some public meeting with the Indian Tribe to whom the

<sup>2</sup> These two introductory paragraphs appear to have been added when the argument was taken from the New York authorities and presented to the British Court. Other changes of wording will be noticed as the argument proceeds.

Lands belong—That the Lands in Controversy were thus Indian Deed No. 1. purchased will be rendered evident from an Read it. Indian deed procured in conformance to the above mentioned Regulation at the Expense of Col. Bradstreet and his Associates.

From this deed it appears that Col. Bradstreet and his Associates paid the Indians a large Consideration, that the Gov<sup>r</sup>. obtained the Conveyance to his Majesty's Use at a General Treaty and that it was made by the Indians expressly with the Intent that Col. Bradstreet and his Associates should have the preference to all others in obtaining his Majesty's Letters patent for the Lands thereby conveyed.

But besides this Conformity to the Regulation prescribed by the royal Proclamation the purchase was made with the privity of Sir W<sup>m</sup>. Johnson Superin(ten)dent for Indian Affairs in the Northern District.

No. 2 Sir W<sup>m</sup>. Johnson's Letter. Read it. This appears by his Letter<sup>3</sup> to Col. Bradstreet on the subject—

This Letter my Lord will serve not only to shew Sir William's Privity to the purchase and that it was publickly transacted as appears from these Words in it "If I was sufficiently recovered to have recourse to the several proceedings at that Time I might possibly be more circumstantial but I fancy this will prove satisfactory as to the Idea the Indians entertained and their Intentions in making the Grant to You" [but] it will also be of use under the Second General Head and shew in Addition to what has been offered in proof from the Acts & Declaration of the Esopus Indians (under whom the Proprietors of Hardenbergh's patent Claim their Indian Title) that both those Indians & the Six Nations agreed that the property of the Lands in Controversy were in the latter as the native original prop<sup>rs</sup> thereof.

True it is that the Lands in Controversy are within the Line established at the above mentioned Treaty as the boundary of the Lands ceded by the Indians to the Crown; but as that

No. 3 Extract of Indian Treaty. Read it. Cession was posterior to our purchase and as by the Terms of the Treaty (of which we are informed the Gov<sup>t</sup>. is possessed) it will appear that

the Indians made a Saving in favor of those of his Majesty's Subjects to whom they had sold Land, the Cession must operate as a Confirmation of our Indian Title. And that We reason justly, my Lord, will appear from an Extract of the Treaty which I beg leave to read.

No. 3 Col. Croghan's Certificate. Read it. The Fairness of this Transaction will further appear from a Certificate of Col. Croghan who was present at the Execution of our Deed & at the

tificate. Read it. one of the Witnesses sworn to by John Butler  
interpreter and the other Witnesses to the Indian Deed.

From those several pieces of Evidence my Lord we humbly conceive that it appears to a demonstration evident that the Lands in Controversy were purchased by Sir Henry Moore at our Expense at a public Meeting or Treaty with the Native Indian prop<sup>rs</sup>, and tho' to his Majesty's use, yet in fact for our Benefit, and with a declared intent to entitle us to his Majesty's Letters patent for the same, that the Consideration was actually paid & the deed executed in the presence of Sir Henry Moore, that the purchase was confirmed by the A<sup>d</sup>. Treaty of Cession and we presume there is not the least Reason to doubt we should long since have experienced the Grace of the Crown in Common with several others of his Majesty's Subjects whose purchases were in the same predicament with ours, by the Grant of his Majesty's Letters patent, had it not been for that Groundless opposition of the proprietors of Hardenbergh's patent, which has hitherto obstructed all our Attempts made at a Great Expense to avail ourselves of his Majesty's Royal favor. But, my Lord, to shew that this Opposition is groundless, We shall proceed under the Second General Head.

1<sup>st</sup>. To recapitulate the arguments & proofs which we offered at the first Hearing against the Claim of our Opponents, etc.

2<sup>d</sup>. To obviate such Objections as at the last hearing they attempted to avail themselves of—In the Execution of this part of our Task I shall aim at all possible Brevity; and flatter myself that every Obstacle which has hitherto prevented us from reaping the fruits of his Majesty's Royal Munificence will be effectually removed.

To do justice however to a Cause of so much importance, as we barely opened the points & read the Evidence we had to produce in support of them, without scarcely enforcing them with a single Reflection, I must beg the favor of your Lordship & the Honorable Board, that I may be a little more copious in this Reply.<sup>4</sup>

In the opening Argument, I broke two points. (1.) The suspicious Circumstances that attended the issuing of Hardenbergh's patent & from those concluded that the greatest favor the prop<sup>rs</sup>. of that patent could expect was a rigid construction of their Boundaries—especially as it is a Crown Grant; (2.) That from a variety of Evidence it was extremely apparent that neither the Indians of whom they purchased nor the

<sup>4</sup> The reference is to the opening argument and petition presented in May 1770. See summary of proceedings in prefatory note.

proprietors themselves ever till of late years esteemed the boundaries of that patent to extend beyond the Popaghtonk or East Branch of the Fish Kill or Northernmost Branch of Delaware River.

Under the first point my Lord I observed that as by the Policy of Law all Letters patent in England must pass thru' certain different Offices, which serve as a Check each upon the other to prevent undue alienations of the Crown Lands so in this Country there is and at least ever since the Gov<sup>t</sup> came into the Hands of the Crown, has been a fixed and established Channel thru' which every Grant of the Crown Lands must pass in order to be good and valid in the Law.

That his Majesty & his Royal predecessors have tho't fit to make the participation of his Council as well as that of his Gov<sup>r</sup>. or Commander in Chief absolutely necessary in the Grant of Crown Lands—

That therefore every grant as to situation & Quantity which has not been fully & apparently assented to by the Council for the Time being must be null & void as issued without authority.

I then proceeded my Lord to shew that the Grant to Hardenbergh & Company was in that predicament. To prove this I adduced the following proofs.

(1.) Johannes Hardenbergh in behalf of himself & Company A. Petition of Johannes Hardenbergh for a License to purchase a Small Tract in Ulster. on the 18<sup>th</sup> July 1706 presented his petition to [Edward Hyde,] Lord Cornbury then Gov<sup>r</sup>. of this province setting forth a discovery of a *Small Tract* of vacant & unappropriated Land in the County of *Ulster* & desiring to settle & improve it, he prays a License to purchase it of the Indians.

This my Lord was the first Step taken towards obtaining the patent in Question.

The petition is for a *Small Tract* of Land in the County of *Ulster only*—and yet scanty as the limits were which the petitioner assigned to himself, this petition was the first step towards a Grant containing, exclusive of the present & all other Controversies, upwards of 1100 M. [1100 000] Acres & extending into the County of Albany as well as that of Ulster.

(2.) The Gov<sup>r</sup>. probably deceived with the pretence of the Smallness of the Tract without strictly enquiring into the Bounds or extent of Country the petitioner had in view did No. 1 B License to purchase a small Tract in Ulster. by an Order in Council the same day give the Petitioner a License to purchase a small Tract of Land in the County of Ulster

(3.) What Use the petitioner & his Associates made of this License for the purchase of a small Tract is not uncertain—For tho' the first petition & the License grounded on it were

No. 2 Second petition of Hardenbergh. for a small Tract of Land yet the petitioner & his Associates as appears by their Second petition dated the 17th March 1706 / 7 had so enlarged their plan that instead of purchasing of the Indians a small Tract they had procured from them a Conveyance of "All That Tract of Land lying and being in the County of Ulster stretching from the Northwest Bounds of the Township of Marbletown northwesterly ten Miles beyond the Hills that lye on the south-east Side of the Low Lands or Meadow Land that lies on the Fish Kill or River and runs northeasterly with said Breadth till You come opposite to a Creek called by the Indians Anquoth-kon Kill where William Leggs Saw Mill stood, and further still running Northeasterly with the Breadth of Ten Miles from said Kill northwesterly, to the County of Albany & running Southwardly along the Northwest Bounds of the Town of Marbletown and Rochester with the full Breadth first above ment<sup>d</sup>. till so far as to run with a due South East Line to a certain fall in the Rundour [Rondout] Creek called by the Indians Hoanekr<sup>r</sup>. which is the northerly bounds of the Land called Nepenack [Napanock] belonging to Jacob Rutsen & Jan James Bleeker [Bleeker?]" This Extravagant purchase founded on a License for buying a small Tract appears from this petition to have given great Umbrage to their Neighbours. For this second petition declares that a Caveat had been entered ag<sup>t</sup>. their obtaining a patent for the above described Tract which probably interfered with their Neighbours They therefore pray a day may be assigned for hearing the parties—

What became of this Contest we are not, perhaps for want of a proper search in the Secretary's office, able to determine. We will suppose however my Lord that for the present it was dropped. But

(4.) On the 19<sup>th</sup> June 1707 Hardenbergh & Company No. 3 A. Third petition of Hardenbergh. renewed their Application to Govt. by a third petition & prayed a Grant for the Lands they had purchased of the Indians—which was read in Council. On that very day a petition of the Inhabitants & Freeholders of the Town of Hurley praying No. 3 B. Order of Council on petitions of Hardenbergh & Hurley. a Grant of a parcel of Land between Marbletown & Kingston & of another parcel between Kingston & the Blue Hills was also read in Council & both petitions were ordered to lie on the Table.

(5.) On the 4<sup>th</sup> of Feby 1707 Hardenbergh & Co. presented their petition to my Lord Cornbury by which they enlarged their Request even beyond the Bounds of their Indian purchase & beyond the Bounds of Ulster & extended it into the County of Albany; and by this petition they assert what is a downright Falsehood to wit that by his Excellency's favor & License

they had purchased some certain *vacant Lands* in the Counties of Ulster & Albany and then under a pretence that they were put off meerly from an Apprehension that the Lands they had purchased might interfere with some former Grant, they, artfully pretending to avoid all Contest, pray for a Grant exactly in the Words of their present patent which include Lands in the County of Albany.

No. 4 B. Order (6.) On the day following, 5<sup>th</sup> Feby. 1707, that the petition the last mentioned petition was read and so lie on the Table. Cautious still were the Gov<sup>r</sup>. & Council that they ordered that the petition should lie on the Table till the first Thursday in March then next and it was ordered that on that day the petitioners & the Inhabit<sup>s</sup> of Hurley who had petitioned for a Tract of Land in the said County (Meaning the County of Ulster) should appear & be heard on their respective petitions on the first Tuesday in March then next.

No. 5 B. (7.) The Inhabit<sup>s</sup>. of Hurley however did not appear at the day appointed & therefore on the 4th of March 1707/8 probably the day appointed for the purpose we find an Order of the Gov<sup>r</sup>. & Council that the Inhabit<sup>s</sup>. of Hurley do preemptorily appear that day Month to make out the Allegations of their former petition.

No. 6 B. (8.) On the 18th March 1707/8 but 14 days after the last Order there is an Entry in the Council Books of a petition of Cornelius Cook and Adrian Gerritse in behalf of themselves & the other Inhabitants of the County of Ulster withdrawing their Caveat & praying a Grant of the Lands mentioned in their former petition which are not included within the petition of Hardenbergh;

In consequence of which it was ordered by the Gov<sup>r</sup>. & Council that a Warrant be prepared for the Atty General to prepare a Draft of Letters patent for the Lands petitioned for by Johannes Hardenbergh & Company in the County of Ulster and

No. 7 B. (9.) By an Entry in the Minutes of Council it appears that a Warrant to the Atty General to prepare a patent for Johannes Hardenbergh and Company was signed—The Quit rent three pounds—

Upon those pieces of Evidence we insisted that the Crown had been deceived in the Grant in Question for that the patentees had originally petitioned for a License to purchase a small Tract of Land in the County of Ulster & had abused that License by purchasing of the Indians a Tract of ten miles in Breadth & of a much more considerable Length, that they persisted in this Abuse, by petitioning for a patent for it; That after the Obstructions to their obtaining the patent for the Lands they had actually purchased beyond all reasonable Construction

of their License were removed, they then rose in their Demands yet they did it with great Artifice in their last petition by setting forth that to avoid Contests with their Neighbours they only prayed for the Tract of vacant Land as since described in their patent & lying within the Counties of Ulster & Albany & therefore extending beyond either of their former petitions and their licensed Indian purchase, that nevertheless the Order of Council on their last petition expressly restricted them to the County of Ulster notwithstanding which, Contrary to the established Rules for the Grant of Letters patent which require the participation & Consent of the Council as well as that of the Governour the patent issued in its present form and gave the Patentees Lands in the County of Albany contrary to the express Intention of the Council.<sup>5</sup> That the Govr. & Council are in effect commissioners for granting the Crown Lands & must act jointly—That neither of them could execute this Trust alone, That the Govr. had not the Advice of Council to grant Lands in the County of Albany, but on the contrary acted agt. such advice in granting the patent in Question—That to suppose the declaration in the patent that it passed with the Advice of Council should be evidence of the fact, would be to contradict the last Entry in the Council Books which restricts the patent intended to be granted to the County of Ulster—That to give such efficacy to that declaration would be in effect to deprive the Council of their Right to participate with the Govr. in the Grant of Lands, by leaving it in his power in defiance of that Right to divest the Crown of its property even without the Knowledge of the Council & that by a single Assertion which in fact would be false—That tho' the Grant of the Crown is a Matter of Record yet any grant under the Great Seal of this province which notwithstanding any thing asserted in it, could be shewn not to have passed thro' the ordinary Channel would be as null & void as a patent under the Great Seal of Great Britain reciting all the prerequisites yet in fact & Truth supported by none of them would be. From all which it was concluded that the patent in Question issued upon false suggestion & deceit of the Crown & that therefore according to the clearest Rules of Law it is absolutely null & void & leaves full room for the Application of Col. Bradstreet's Indian purchase & petition, a Grant in Consequence of which cannot possibly interfere with any one's Right.

But to all this it was answered by the Counsel for Hardenberghs patent, that however clear it may be that the Council Board might have originally intended to confine the patent

to the County of Ulster yet there is evidence that they afterwards consented to an Enlargement of the Bounds of the Grant-

No. 8 [B.] To support this Assertion the Warr<sup>t</sup>. to the Attorney General to prepare the Draft of the

Letters patent dated the 15<sup>th</sup> April 1708 was produced; the Bounds of which run exactly in the same words with those of the patent itself. And to justify this Warrant Reference

No. 7<sup>o</sup> was had to the Entry in the Council Books of that day by which it appears that the Warr<sup>t</sup>.

for the patent was signed. From whence it was concluded that the Council were privy to the Terms of the Warrant & consequently to the Boundaries contained in the patent.

When I first opened this Matter, my Lord, I was utterly ignorant that such a Warrant existed—Col. Bradstreet informed me that he could find no warrant in the Office. whence I naturally concluded that the Warr<sup>t</sup>. referred to in the last mentioned Entry in the Council Books, if any ever issued, must have been grounded on the Order of the 18th March preceeding which expressly directs that the Warr<sup>t</sup>. to the Atty General to prepare a patent should be confined to the Lands petitioned for in the County of Ulster.

Nor my Lord can I still help thinking that this warrant was run either upon the Governour or the Council or both without due Knowledge of its contents.<sup>7</sup> For neither the Warrant nor the Entry which in date corresponds with it appears to have been read in Council, nor is there the least Entry in the Council Books to show that the Gov<sup>r</sup>. and Council had reconsidered the last petition of Hardenbergh the formal Order of Determination on which was that he should have a patent for the Lands petitioned for in the County of Ulster. It is easy therefore to conceive that as the Warrant was merely signed in Council its Variance from that formal Order passed unobserved; and ought to have no more Credit from the Circumstance of its being signed there & the Entry of the Secretary that it was so signed than if it had been signed in the absence of the Council. Had it corresponded with the Order it had been immaterial where or in whose presence or with whose privity it was signed. But I humbly conceive as the Council are as necessary Agents as the Gov<sup>r</sup>. in the Grant of the Crown Lands, and as it appears that they had in Conjunction with the Governor by a solemn Determination restricted the petitioners to the County of Ulster, nothing less will do to remove all suspicion of Fraud than clear proof of a Revision & Renewal of that determination which our Opponents have not produced.

<sup>7</sup> Six lines are erased in the original manuscript at this point the argument being developed in the following text.

There is perhaps my Lord, further reason to suspect unfair Dealing towards the Crown in this Instance. My Lord<sup>s</sup> Cornbury was well known both in Britain & America as a Gentleman remarkably unattentive to Business and therefore very liable to be deceived. Hardenbergh was the only man whose name appeared as a petitioner. But there were persons of more weight behind the Curtain who were to be benefited by the Grant. When the Warrant had issued Mr. [May] Bickley the Attorney General appeared as a patentee, and Mr. [Thomas] Wenham was more occultly personated by Mr. Robert Lurting who tho' inserted as a patentee lent his name to Mr. Wenham, for it appears from the Records of the Secretary's Office that the deed was executed by him to Mr. Wenham for 1/7<sup>th</sup> of the Tract, it bears the date 12<sup>th</sup> January 1708, is for Call for the Record a trifling Consideration and shews that the and read it. Grant was a Trust for Mr. Wenham. Nor is it If opposed observe it is for the Benefit I humbly conceive my Lord unworthy of Re-of the Crown. mark that Mr. Wenham was so attentive to his Object that he was not absent one Council day in which this important Business came on the Tapis, and that particularly on the day in which the Warrt. was signed in Council he was one of four of the Council present As therefore my Lord this Honorable Board when employed on the Subject of granting away the Crown Lands is always considered as a Court of Requests, as Mr. Wenham appears upon our opponents use of the signing of the Warrant of Council to have sat as one of the Judges of this Court of Requests in his own Cause, which is contrary to all Reason & Law & extreamly dangerous to his Majesty's Right (for otherwise it cannot be when one of the Guardians of his Majesty's Land stock becomes a Suitor before himself for a part of that stock) I say my Lord as all those things appear I humbly conceive that the Warrant in Question cannot cure the radical Defects of the patent. And I would further beg leave to suggest it as a Subject of Enquiry to your Lord & the Honorable Board whether five members besides the Govr. have not always been as they now are necessary to form a Quorum for Business, and if so as it appears that as well at the Meeting in which the Warrant was ordered for the Lands in the County of Ulster only as at that in which the Warrant was signed on which our Opponents so much rely one of the

Here offer the proof [shown in Record Jan. 12, 1708.] four Councillors present was a party the whole Basis of the patent does not fail, and if so we must submit it to your Lordship & this Board to determine what becomes of the patent itself.

Having thus shewn my Lord that the patent is void there can be no controversy between us but if your Lordship & the

<sup>8</sup> Edward Hyde, Lord Cornbury, Governor of New York 1702-1708.

Honorable Board should be of a different Opinion which we flatter ourselves cannot be the Case, yet from the very suspicious circumstances which attended the issuing of Hardenbergh's patent I conclude that the greatest favor the proprietors of that patent can expect in this Controversy is a rigid Construction of its Bounds—I proceeded—

Under this Head to observe that your Lordship and the Honorable Board were Trustees of the Crown's Land Stock and the revenues either actual or contingent thence to arise and that in this View I made not the least doubt that to every Grant the Bounds of which come into Question here the Rules of Law would be applied as the proper Test; That the Law clearly is, that Grants of the Crown obtained on a suggestion of the party shall be construed strictly ag<sup>t</sup>. the Grantee & most favorably for the Crown; That in this Case the Rule is the Reverse to that which prevails in the Construction of Grants between Subject & Subject—for in the Latter recitals may operate ag<sup>t</sup>. but never can make for the Grantor because they are his own Words, But that in Grants of the Crown suggestions of the Grantee tho' adopted by the Crown in its Grant, can never make ag<sup>t</sup>. the Crown but may & if the Matter of them is ag<sup>t</sup>. the Grantee will operate ag<sup>t</sup>. him; That whenever the Grant of the Crown issues on the suggestion & petition of the party, he is held to suggest at his peril because the Attention of the Crown being ingaged on the *Arduis Regni*<sup>9</sup> the Law has not only discharged the Crown from any Guards ag<sup>t</sup>. false suggestions in fact but has made it a Rule that wherever a Grant is made on petition & suggestion of the party it shall be construed strictly in favor of the Crown; That therefore in every such Grant where the Construction is doubtful or in other Words where two constructions may be put that which is most in favor of the Crown shall be received; that tho' it is a general Rule that Grants which express themselves as issuing of the special Grace certain Knowledge and meer Motion of the Crown shall for the King's Honor be construed most liberally in favor of the Grantee, yet those words become a dead Letter when the Grant is founded on the prayer and suggestion of the party and that for this most evident Reason that those Words being expressive of the King's spontaneous & selfmoved Exuberance of favor are expressly contradicted & their Operation utterly annihilated by the Express Suit and Suggestion of the party as the moving Cause of the Grant which Observations were, it was urged, so clearly & indubitably supported by Law, that it would have been an impassable Affront to offer to your Lordship & this Hono<sup>ble</sup>. Board, under whose imme-

diate Care & direction the royal Land Stock is placed, a single Authority in their Support.

This patent my Lord usually called by the Name of the Great Patent pays but £3 annual Quit rent. Supposing therefore that it were not void yet the Attempts of the prop<sup>rs</sup>. to extend it beyond its real Bounds is a most manifest Attack upon his Majesty's Revenue—For if it should be construed rigidly yet by its Terms it is made to contain so much more Land than was really intended to be granted them in consequence of their 2<sup>d</sup>. petition that the Crown has lost an immense part of its Revenue, which had not been the Case had those Lands been patented at the rate of Quit Rents established a few Years after, which might probably have long since been the Case had those Lands been vacant. This Loss added to the Loss [to] the public arising from the hitherto unpeopled State of [so] large a Tract as the whole patent, ought as we humbly Conceive to induce the Gov<sup>t</sup>. to look with a Jealousy [sic] eye on the late Attempt to give it an amazing Extent beyond what the Words of the patent can properly warrant.

[Proper Construction of the Hardenberg patent.] Having thus my Lord cleared the way for a proper Construction of the Bounds of the patent we proceeded to shew how many Constructions this Grant was capable of from its own Words independent of any Evidence from without. We shewed that it was capable of four different Constructions; ground[ed] on these words of the Bound-  
Here lay open the aries to wit "So running along that Line that is Maps. No. 1 B. the Line of witness's patent Northwestly as the said Line Runs to the Fish Kill or River and so to the head thereof including the same, thence on a direct Line to the Head of a small River commonly known by the name of Cartwright's Kill" That upon these Words it appears that the Fish Kill or River is the Stream the head of which is the Boundary according to the Words of the patent. The Question is—

(1.) Shall that be Esteemed the Head of the Fish Kill or River where the Stream loses that Name, that is at the point of Conflux of the East or Popaghtonk Branch & West or Cookhouse or Mohawk Branch which Construction would be most in favor of the Crown or

(2.) As the Popaghtonk or East Branch divides itself into two Branches shall the Head of the Southermost of those two Branches which would furnish the next best Construction in favor of the Crown be the Boundary or

(3.) Shall the Head of the Northermost of those two Branches which would be more ag<sup>t</sup>. the Crown be the Boundary,

Either of which three constructions will Leave the Lands in controversy vacant or

(4.) Shall the Head of the Mohawk or Cook-house Branch, which will furnish the Construction the most ag<sup>t</sup>. the Crown of any that can possibly be & include the Lands in Controversy be the Boundary?

I insisted my Lord that as this Grant is to be construed most strictly ag<sup>t</sup>. the grantees & most in favor of the Crown, the first of the above four Constructions ought to take place because it would take least from the Crown. To shew that this Construction was not only possible but natural I observed that in the Grant the Fish Kill which is the Stream Below the forks of Shewakin or the place of Union of the Mohawk & Popaghtonk Branches, is the River the head of which is in the Grant declared to be the Boundary by the Words "*and so to the head thereof.*" That therefore the Question arises to wit which is the Head of the Fish Kill or River, the answer to which I conceived was that the forks of Shewakin or the place of Union of the Mohawk & Popaghtonk was the head of the Fish Kill or River. My Reasons my Lord were these

(1.) That there the Fish Kill or river Ends because it there loses its Name.

(2.) That if the Sources of Branches or smaller streams may be called Heads of the River because they empty themselves into it, the Fish Kill has a variety of other Heads as the Source of the Lochawapin & many others on the West Side, & those of the Massacomeck [?] & many others on the East Side; That both the East & West Branches have their respective peculiar & appropriate names and that in Geographical Descriptions a River is never made to extend farther than it carries its name; That there is as manifest a Distinction between a River and its Branches as there is between a Tree & its Branches, and that as the head of the Tree is properly the head of the Trunk or place where the Branches insert themselves so is the Head of the River the place where the Branches insert themselves and that the Mohawk & Popaghtonk are confessedly and evidently Branches only and the Fish Kill or River with respect to them is the main Body or Trunk.

(3.) That this Construction will not only give least Land to the Grantees but will also be attended with less doubt; for that if by the words *Head of the River* should be understood its source or that fountain by which its Stream is fed through a Branch flowing into it there are a variety of such heads. In this sense the source, spring or fountain of all the smaller streams having their proper Names & feeding the main Stream are equally heads of Fish Kill or River; That more especially as the Fish Kill or River divides itself into two Branches at the forks of Shewakin to wit the Mohawk or Cook-house & the

Popaghtonk, the Sources of the two Streams are equally the Heads of the River; that the Popaghtonk is known to Divide itself into three Branches two main Streams & a smaller one [and] therefore in the Sense of our Opponents has three heads which according to their Reasoning are all heads of the Fish Kill or River; that the Cookhouse or Mohawk Branch may have as many or more the Country having not been sufficiently explored to determine that fact; That should the Case be otherwise our Opponents have furnished us with at least three heads of the River, which makes it necessary to confine the Boundary to the Forks of Shewakin to remove Doubts & prevent the Grant from being void. For as on the one hand if the doubt can be removed it must be construed as I have shewn most in favor of the Crown, so on the other if the doubt remains unsoluble the Grant must be null & void.

But if the Construction which would confine them to the forks at Shewakin be rejected I insisted that nothing could justify their extending up to the Head of the Mohawk Branch— It is more than probable that in that early day when the patent was granted it was uncertain where the Head of the Fish Kill was in their Sense of the Word. The Grant therefore must have intended according to their Construction to give the Head of the Fish Kill wherever it might be as the Boundary. But in their sense of the Word the Fish Kill has several Heads and which to Chuse is the difficulty. That which gives most land I have clearly shown ought not to be adopted because it would be contrary to the clearest & most uncontrovertible Rules of Law, but on the contrary that and only that which gives Least to the Grantees must be received or all the Laws relating to Crown Grants must be rejected, and therefore if they should be permitted to extend Beyond the forks of Shewakin they must still be confined to that head of the Fish Kill which will give them the least Land, which as I observed before must be the Head of the South Branch of the Popaghtonk. But my Lord if the Several Branches had then been explored to their respective Sources the Question still remains, which was the Head in the Sense of the Crown. The Answer I humbly conceive is, that head which will injure the Crown least and this too seems to be the most natural Construction from a View of the Maps because that head is the nearest to the Head of Cartwrights Kill & is so situated that a line extending from the one to the other nearly coincides with the Main Course of the Popaghtonk.

But I further observed that should your Lordship and the Honorable Board be inclined to relax the Rules of Law in meer indulgence to our Opponents it would not rid them of their difficulties. That this indulgence could not be

extended so far as to assign to them the Head of the Mohawk Branch as their Boundary, meerly because that will give them more Lands; That such an Indulgence could not with any Colour of Reason be expected from the Guardians of the Rights of the Crown; That the East Branch followed to its Source formed the Head of the River as much as the West Branch; That it would be absurd to distinguish that which was the most remote as the Head of the Fish Kill because that in their own Sense of the Word every Source of a river is its head be it more or less remote; That the words of the Grant are not to the most remote head but to the Head thereof, & That the East Branch if it be measured in its meanders is at least as long as the West Branch, And finally that should the River be deemed to head either at the forks at Shehawkin [sic] or at the Head of the South Branch of Popaghtonk, or even at the Head of its North Branch the Lands in Controversy will still remain vacant.

I would beg Leave my Lord to add one thought more that has lately occurred to me. Where a Tract of Land is described as adjoining to a River as the Hardenbergh Tract evidently is, I believe even in a Grant from subject to subject it would be thought a very strange & unnatural Construction to extend it across one of its main Branches & yet such is the Construction [Grant to William set up against us in the present Case. Should Penn cited.] Wm. Penn or any of his descendants have put such a Construction on his Grant as to have extended it across the Mohawk & up to the Popaghtonk Branch, it would be thought by all the World to be an absurd Extension, and yet that Grant ought to be construed with the utmost Liberty as it issued not only as it is expressed of the Crowns special Grace, certain Knowledge & meer motion but expressly out of Regard to Memory & Merits of his late Father in divers Services & more particularly in Consideration of his Courage, Conduct & discretion under the Duke of York in that signal Battle & Victory fought & obtained ag<sup>t</sup>. the Dutch fleet commanded by the Heer Van Opdam in the Year 1665<sup>10</sup>

In short my Lord if We consider the Words of the Grant [Interests of Crown without any Aid from without, which I humbly to be guarded.] contend must ever be the rule when they are capable of their own Exposition as the Words of the Grant in Question undoubtedly are; if we Consider what Construction of them Reason would naturally dictate & if finally we apply the Rules of Law to them which demand such a Construction as is most for the Interest of the Crown, and cannot as I humbly conceive be dispensed with, all these conspire to prevent the Hardenbergh Tract from including the Lands between the

Popaghtonk & Mohawk branches & consequently leave Room for extending the Bounty of the Crown to Col. Bradstreet.

We might indeed my Lord have relied on the Objections arising from the Manner in which the Grant in Question was obtained & upon the Words of the Grant itself construed in a rational Sense & in Conformity to the known Rules of Law as amply sufficient to insure us a Victory. But in a Case of so much moment it [we?] thought it prudent to supererogate by adding some Collateral proof to fortify our Reasoning on the Subject.

The Gentlemen in Support of The Patent observed that there were no recitals in it but of the petition on which it was grounded—That an Indian purchase is not necessary to make a Title at Law & that it is in no Case admissible as Evidence but to clear up doubts about Boundaries—I agree with the Gentlemen that by the Laws of England the Crown is the fountain of all Titles as well to Estates as to Honors & Offices; but I believe no Man of understanding ever meant to assert that this prerogative of the Crown was ever carried in the Ideas of Government to such a Length as to divest the aborigines of their natural Rights. The Government cannot be ignorant [Indian rights in that King Charles the Second issued his royal the premises.] proclamation whereby he asserted those Rights and forbade the Grant or Occupation of any Lands without an Indian purchase. Nay the very Idea aimed to be established by the Gent<sup>n</sup>. who oppose us is that the Six Nations & the Mohicanders or River Indians have rendered themselves subjects to the Crown of Great Britain, which implies their protection in their person & Estate.—And upon a principle of protection has the Gov<sup>t</sup>. always acted towards them by making an Indian purchase necessary previous to the Grant of a patent. However true therefore it is that in a Court of Law an Indian purchase is not a necessary Link of Title it is as true that before this Honorable Board it ought to be considered as the first Link and if the Bounds of a patent come into Question here, as our Opponents admit that in a Court of Law an Indian deed will serve to Explain Boundaries surely this Honorable Board will conceive that the apparent disparity between the Bounds of the Indian purchase made by License of Gov<sup>t</sup>. & the patent grounded on it furnishes the strongest Reason for construing the patent rigidly.

But my Lord it is not only clear that the Indian purchase on which the proprietors of Hardenberghs patent founded their patent does not include any Lands in the County of Albany nor across the East Branch of the Fish Kill, [but] We shewed from the most irrefragable Testimony that the proprietors of that patent never till of late Years conceived that it included any Lands between the East & West Branches.

For this purpose we produced sundry pieces of Evidence.<sup>11</sup> The first was a Treaty held with the Esopus Indians in whom the property of the Lands now in Controversy are pretended to have been vested. The preliminary measure to this Treaty was as we shewed an Order of certain Justices at Kingston suggesting that Major Hardenbergh had complained that the Indians hindered the Running of the Outlines of the patent & appointing a day for the Treaty. At which day which was the 27<sup>th</sup>. Aug<sup>t</sup>. 1743 the Treaty was accordingly held & among other Indians Sander their Chief Sachem & Hendrick Hegan were present. This Hendrick several of our Opponents say lived on the West side of the Popaghtonk Branch where he had an orchard. The very Cause of the Treaty appears to have been Hardenberghs Intention to run the out Lines of his patent; The Business was so opened to the Indians by Hardenbergh himself. He shews his Intention to have been to make a Survey of more Lands than he had ever purchased of the Indians, for he expressly informed them that he desired to run the out Lines of his patent to find out the true Owners of the Land and that after it was measured he would not take any Land without first agreeing with & paying the particular owner of each Tract.

Is it possible My Lord for a Man to have been more explicit than Hardenbergh was, or can any Thing be clearer than his design to run out the Boundaries of his patent in the full Extent of his Claim? And what such extent was is as evident from the answer given to him by the Indians. It was that he should have Liberty to Survey round the patent and up the River Papakonk [Popaghtonk?] and also to divide the Land, but not to Claim any Right to the Soil before a purchase of them; Had he then Intended to make the west Branch his Boundary he would have desired Leave to run up that Branch, he would have so expressed himself, And to this there could have been no Objection but the true one, a Want of property in the Esopus Indians, because he expressly disavowed a Claim of property to any of the Lands before a purchase & the Indians as expressly stipulated ag<sup>t</sup>. such Claim until a purchase— Thus then my Lord it appears that Hardenbergh in a solemn Transaction extant of Record asserted the Popaghtonk or East Branch as his Boundary.

[Survey of Henry Worster 1743.] This Treaty<sup>12</sup> was in Consequence of a Survey that had been attempted by Henry Worster a few days before [the treaty of Aug. 27, 1743] who from the

<sup>11</sup> Fifteen lines of the original text have been erased at this point. The same argument being developed in the following lines the erasures are omitted.

<sup>12</sup> Four lines of original text erased have been omitted at this point the argument being developed in the following lines.

Testimony of Peter P. Low was the person employed for the purpose, and in this Attempt the Indians took away his Chain when he had got up the River as far as within ab<sup>t</sup>. 5 Miles of Papakonk [Popaghtonk] Village. Which chain the Witness declared he purchased from the Indians by Worster's directions. From the Testimony of this Witness therefore it appears clearly that in the first Attempt to make a Survey of the patent Worster ran up the East or Popaghtonk Branch. In Consequence of the ill success of this Attempt the treaty was held at Kingston expressly grounded on a Complaint of Hardenbergh that the Indians had hindered the Surveyor appointed by the Prop<sup>rs</sup>. of the patent from running the Outlines of the Tract. Thence it is evident that Hardenbergh esteemed the East Branch to be the outline of the patent, & in effect so asserted in his Complaint on which the Treaty was grounded, and it was accordingly expressly stipulated by that Treaty that the outlines should be run & that the Indians should permit him to run up the Popaghtonk or East Branch. The work was accordingly performed a few days after by Worster; for [as] the same Witness Peter P. Low deposed—Worster informed him that the Indians had been invited to the Treaty at Esopus, That in a few days after Worster returned from Esopus & informed him that they had agreed with the Indians & that there would be no Danger in proceeding with the Survey, hired the Deponent as an Interpreter at 6 / per day & proceeded with him to the Papaconk [Popaghtonk] Village, That Worster left him there & went down the River ab<sup>t</sup> 5 Miles to the place where the Indians had stopped him & surveyed the out Line to Papaconck from thence to papataghan [Pakatakan?] & from thence to the head of the River & having there marked 2 or 3 Trees they crossed over to the Head of Catrix Kill where Major Hardenbergh was waiting for them. What clearer proof there can be that the East Branch was then agreed to be the out Line of the patent is difficult my Lord to conceive.

[Other surveys in  
1745.] It appears from the Evidence that in the Year 1745 another Survey was made by Ebenezer Worster at which Time they stole the Opportunity of running across from the East to the West Branch but conscious that it was inconsistent with the Right of the patentees & the Sense of all the parties to the Indian Treaty they never attempted to survey down the West Branch & accordingly have not laid down that Branch in the Map which they gave in Evidence. After this Survey in which the Course of the Popaghtonk was run as the out Line of the patent, another Survey was made in 1745 by Order of the prop<sup>rs</sup>. at which Thos. Nottingham was present. In this Survey which was performed by Ebenezer Worster they exactly followed the

Line of the first Survey along the Popaghtonk Branch and up to its Northernmost head passing by the River called the Tweed which ought to have been their True Bounds agreeable to the Words of the Indian Treaty, that being naturally the Stream intended, not only on account of its Course directly towards but also its Approximation to the Head of Catrix Kill. On this Survey as Thomas Nottingham deposed they found several Monuments of Stones & marked Trees that had been before made by Henry Worster at the Time of his Survey in 1743 and particularly at the Head of the North Branch of Popaghtonk and that Ebenezer Worster on this Survey did something towards a division of the patent into Lots & for that purpose made stone monuments & marked Trees as he went along. That during this Survey they never attempted to cross the East Branch but at such places where its East Bank was so mountainous & steep as to be impassable & whenever this was not the Case they always kept their Survey on the East Side of the Branch. This scrupulous punctuality was indeed attempted to be accounted for by their fear of the Indians & not as proceeding from a Consciousness that their patent did not extend to the West Branch. But how far this pretence is well founded will appear from the above noticed Complaint of Hardenbergh & the Indian Treaty in Consequence of it on both which occasions he so effectually declared the Popaghtonk to be the out line of his patent. It is indeed rendered still more groundless by the Boundaries of their Indian deed dated the 6th June 1746 near 3 Years after that Treaty. The Words of those Boundaries are as follows: Beginning at Papaconk at the River & running down the said River as far as to the Bounds of the <sup>13</sup>Cashiktonk [Cashietonk?] Indians including half the River & half the Islands as far as aforesaid, then along the Bounds of the Lands of Cashiktonk Indians to the Bounds of Rochester patent, then beginning again at Papakonk af<sup>d</sup>. & running up said River including half the River & half the Islands as af<sup>d</sup>. to Pakatakan & so up to the head thereof, from thence with a streight Line to the Head of Catrix Kill &c the Mohawks Claim excepted. This deed evidently pursues the Words of the Indian Treaty with the utmost precision, and was doubtless procured in Consequence of the Stipulation contained in that Treaty that notwithstanding the permission thereby given to Hardenbergh & his fellow proprietors to survey up the Popaghtonk Branch as the Outline of their patent they should not presume to claim any Lands comprehended within it which they had not bought of the Indians.

<sup>13</sup> This Indian name occurs in various spellings the one within the brackets being perhaps the most approved. See: post p. 171.

It is further observable my Lord that in this Deed the Mohawks Claim is excepted. What this Claim could possibly be but the Right of the Mohawks extending to the East Bank of the East Branch we cannot conceive because it was never pretended that a Line from the Head of that Branch to the Head of Catrix Kill would include any Land belonging to the Mohawks on any other Supposition, unless it be that which we urged in the Opening Argument that all the Lands possessed by the River Indians belonged to the Mohawks by right of Conquest.

But it is further Remarkable that this East Branch is declared in the Indian deed to be the *River* contrary to the present attempt of our Opponents to make the West Branch pass for the River,—and this remark is strengthened by another Indian deed procured by the patentees only two Months after the one just noticed. It is dated the 2d August 1746, is for a tract lower Down the River or to the Southward of the other Tract. It was obtained of the Kashightonk [Cashietonk?] & Minisink Indians, begins at the Great Yagh House and with a Course W. & by North strikes the Fish Kill or Main Branch of Delaware River & after crossing it four Miles runs parallel with it as far as the Cashightonk or Minisink Indians Right or Claim extended & then runs easterly to the late purchase of the Esopus Indians bearing Date the 6th June 1746 on the said River. But that purchase is evidently bounded on Popaghtonk. Therefore those two Deeds compared together demonstrate that the Popaghtonk was in the Estimation of Major Hardenbergh who was one of the patentees & Mr Livingston who was a purchaser under a patentee and 57 Minisink Cashightonk & Esopus Indians the *Fish Kill or main Branch of Delaware River* and consequently serve in conjunction with Hardenbergh's Complaint, and the Indian Treaty entered into with Hardenbergh in consequence of that Complaint, to demonstrate that the Intention of the Crown & the patentees in the Words by which the Tract is described to run up the Fish Kill or River to the Head thereof was that the Tract was to run to the Head of the Popaghtonk Branch.

Indeed so clear & conclusive is this Evidence arising from the Complaint of Hardenbergh, the Treaty to which that Complaint gave Birth & the two Indian deeds all clearly expressive that the Popaghtonk was the out Line of the patent that no doubt can possibly remain on the Subject.

We shall therefore my Lord for Brevity Sake waive observing either on the other Evidence offered by us to prove that the Lands between the two Branches belonged to the Mohawks or on the two Certificates of Doctor Shucksburgh [Richard Shuckburgh] relative to Gov<sup>r</sup>. [William] Cosby's Mine to prove

the Lands between the two Branches were vacant, or on the several patents which have been granted by the Crown all which are incompatible with the Supposition that the West Branch is the Boundary of the patent now under Consideration & proceed to a short Survey of what has been offered by our Opponents in proof of that point.

The first fact they Relied on was that one [Jacob] Rutsen [Claims advanced by opponents. Rutsen Purchase of 1706.] on the 31<sup>st</sup> July 1706 made a purchase of the Indians of sundry small pieces of Land between the East & West Branches & besides those of a particular Spot on the West Side of the West Branch called Akanunkapunk. Great pains were taken to ascertain the Location of this same Akanunkapunk by the Testimony of Mr. [William] Cockburn & others. But my Lord it was obvious at the Time that Evidence and the Affidavit of Rutsen's Son [John?] to support it were produced that this purchase was made without a License for the purpose, & tho' from the Sons Affidavit it appears the father had declared that he was to have been a patentee & was unjustly deprived of his Right, yet certain it is that nothing can be concluded from any Evidence that has been offered that this purchase was made with an Intent to ground the patent on it. Those who know the Disposition of Indians know also that they may for the most trifling Recompense be prevailed on to sell Lands that do not belong to them, tho' they are extreamly apt to hold their indubitable property at a high price. The Supposition is further exploded by every Step taken towards obtaining the patent in all which this unlicensed purchase is utterly disregarded. And as a proof how much our Opponents are put to their Shifts I shall only remark that Col. Hardenbergh the Gent<sup>n</sup>. who produces this Evidence has thought it necessary to prove that his father one of the patentees & thereby Agent in procuring the patent that was known to the Gov<sup>t</sup>. was accessory to a manifest Wrong done to Rutsen.

[Indian Deed 1751.] Another Indian deed dated the 3 June 1751 was produced ag<sup>t</sup>. us; but for what valuable purpose I cannot conceive. It was however evidently obtained to facilitate their present Claim & to Extend their Tract to the West Branch & is in Substance a Grant of the Lands between the two Branches. It would appear very extraordinary my Lord if this deed should have any weight in the Controversy, obtained as it was near half a Century after the patent issued and evidently after the proprietors had formed the Scheme of extending their patent beyond its original Bounds contrary to the most solemn, express & repeated Acts to which they were parties. To what an enormous Extent patents will

grow if the proprs. are permitted to explain their Bounds by Indian deeds taken near fifty years after their dates, Your Lordship & this Honorable Board will readily conceive. In proportion as Lands rise in Value such Deeds which can always be procured at the Expense of a few Gallons of Spirits will multiply & descendants from the first patentees will by such means be able to reap at the Expense & to the prejudice of the Crown what their forefathers never sowed.

But there is indeed a most cogent Reason why if that Indian deed is to receive any Notice it ought to operate so strongly agt. our Opponents as to give us the full enjoyment of all We expect. Your Lordship & every Member of this Honorable Board must perfectly remember that the Instrument ushered in as the Indian Deed contained Many sheets of paper, that I requested the Whole should be read, that my request was answered by a Declaration from the Mouth of one of the Counsel for our Opponents that I should have the Sight of the Instrument & make what Use of it I thought proper. I accordingly applied for it, my Application was indeed backed with the respectable Weight of Government, But what did all this avail? Neither the Justice of the Request nor the positive promise of our Opponents nor even the Authority of Govt. has been sufficient to command its production. On the contrary a single sheet of paper has been lodged in the Hands of Mr. Deputy Secretary instead of that voluminous Instrumt. & of which I have not asked a Sight, because it was not the paper given in Evidence. But why permit me to ask it my Lord, why this strange & unprecedented Concealmt? Is it not a maxim that the whole Contents of every written Evidence shall be read if required? Why do our Courts of Justice daily determine that where a Deed is proved by a party to be in the Hands of his Opponent the strongest Argument is furnished agt. him by its non production? Is not the Reason evidently this my Lord that he would produce it did not the whole Instrumt. taken together strongly operate agt. him. Concealed Weapons not only beget Jealousy but are productive of Danger, and he who wears them is strongly to be suspected of a Design to make a most improper use of them. I flatter myself therefore as I appeal to the Honor & Dignity of Govt. that this concealed Instrument will not only be taken from our Opponents; I trust that its point will by the Hand of the Govt. be turned agt. them and that were there no other Reason for it, your Lordship & this Honble Board to do us full Justice & discountenance so dangerous a proceeding will favor us with a Grant of the prayer of our petition, which I would only hint my Lord may be done consistent with the strictest Justice as a Grant to Us cannot divest our Opponents of a single Iota of their Right.

But to pass my Lord from a piece of Evidence so disagreeably circumstanced with one single reflexion more—I would beg Leave to observe that this piece of Evidence obtained without a License to purchase & to give Colour to the Enlargement of the Bounds of their patent is it seems Urged as an Argument of preference in their favor to our Indian Deed obtained at the Treaty with the Six Nations at which Sir Henry Moore, Sir Wm. Johnson & several other Gentn. of the first Rank were present & obtained too by the immediate Agency of Sir Henry Moore with the Knowledge of Sir Wm. & in exact conformity with the royal proclamation. But how unequal the Competition between this Deed thus regularly obtained & the other procured from vagrant Indians to serve the purposes of Countenancing an undue extension of the bounds of a patent issued near 50 years before, I need not mention.

The next piece of Evidence offered by our Opponents will not I flatter myself weigh a single Grain in the Scale of Evidence. It is composed of Sir Henry Moore's appointmt. of Mr. [Simeon?]

[Line of Indian Cession as run by Mr. Metcalf.] Metcalf to run the Line of Cession agreed to by the Six Nations at the above mentioned Treaty and his Oath that he ran the Line agreeable to that appointment. And the only fact colligible from this Evidence is that Sir Henry Moore in the Construction of that Cession considered the West Branch as Delaware River—Agreed my Lord.

But it is obvious that the late Govr. who besides his good Sense had a just Knowledge of the Geography of the province knew that the Fish Kill or Main Branch of Delaware divides itself into two principal Branches the Popaghtonk & the Mohawk Branch. That this River being by the Indian Cession made part of the Boundary of the Lands ceded to the Crown it was fit & right for him to direct that Branch which would give the Cession the most Beneficial Operation for the Crown to be observed as the Boundary and accordingly he directed the Surveyor (without any distinction between the Delaware & its Branches) to begin his Survey where a due East Line from Owego strikes Delaware & to extend it up the River till opposite to where Tienonderah falls into the Susquehannah thereby fixing the West branch for the purpose of that Survey to be Delaware river as intended by the Cession. But surely my Lord When Delaware River & its branches are thus complexly considered, from the preference given by Sir Henry Moore to the West Branch it can never be esteemed that the Govt. near sixty years before & upon another subject, & agt. the most solemn Acts & express Declarations of Our Opponents intended to fix the West Branch as the Bounds of their patent. When a Tree and its Branches are complexly mentioned every

Branch is the Tree but when a Distinction between the Tree & its Branches is taken up the Construction is vastly different. In our Case the Fish Kill was evidently considered as the Main Branch of Delaware River & the Popaghtonk Branch was as evidently a Continuation of that Main Branch in the Sense of our Opponents—

If my Lord we weigh the Testimony of Jacobus Bruyn in the Scale of Evidence it will like Belthasar tried in a more awful Balance be found wanting. In short it is much of the kind with that administered by Sir Henry Moore's Commission to Mr. Metcalf for it proves no more for our Opponents than that Mr. Bruyn was surveying Lands many years ago, on the West Side of the West Branch & that in pursuing his Survey Downward he struck upon a Branch (doubtless the West Branch) which he concluded to be Delaware River because (& for a very good Reason too) the Fish of passage came a great Way up that stream. But this certainly proves no more than that the West Branch was one of the Waters of Delaware as it unquestionably is, and so as undoubtedly is the East Branch and therefore from this Reason only without mentioning more, may as properly as the other be called the Delaware River. When such a monstrous Fabric is built upon so slender a Basis it may well be said—*Debole fundamentum fallit opus.*

But my Lord we have other Evidence administered by our

[Deeds of Partition among Claimants under Hardenbergh Patent.] Opponents still more curious than this—Nothing less in Truth than their own deeds of partition by which it appears that they had divided the

Lands between the Two Branches among them—I

have often heard that a Mans own Words and Actions were the highest possible evidence agt. him; but it is to me a doctrine entirely new & adjusted to the Latitude of this patent only that a division of Lands between a Number of persons should be evidence of their Right to them, Nay what is more Absurd that such Division should so operate even agt. their own most solemn Acts. I hope this Doctrine will not become fashionable. Should it grow into general Taste there would be an End to all further Grants of the Crown Lands for what Company of Land Jobbers would submit to the Expense of patent fees and the never ending Quit Rent of  $\frac{2}{6}$  Sterling per hundred Acres, to procure a Title to the Lands of the Crown adjoining to their property when a common Scrivner at the trifling Expense of five pounds could by the Manoeuvres of the pen vest them in full propriety with all the neighboring Territory. Besides what horrible Confusion of private property would ensue upon this principle; partition agt. partition would confound all the Bounds of Right and be the Source of endless Litigation profitable to be sure to the Men of our profession

but never to be wished for by those of us who are Friends to justice, order, decency & regularity in civil Life. I cannot therefore my Lord but admire at the Attempt of our Opponents to avail themselves of a piece of Evidence so dangerous in precedent, in itself as light as Air & relied upon agt. their own solemn Acts as a proof of the Extent of their patent to the West Branch of the Fish Kill.

But my Lord my surprise is increased when I find this piece of Evidence attended with an Act of their Surveyor & Servant. It is his Map of the patent which on its face carries the strongest Evidences agt. them. How strangely inconsistent is our Conduct when the Love of property is our principle of Action. Sanguine in our pursuits, everything carries with it demonstration in our favor. Utterly blind to the apparent Inconsistencies of Evidence we fancy a beautiful Harmony, a rational Consistency & Co-operation reigns through all the parts of our proof. These unnaturally blended together by the Heat of passion form to our View an engaging picture while to others less prejudiced the piece appears grotesque indeed and truly verifies the observations of the elegant Roman poet—*Spectatum admissi risum teneatis Amici.*

[Map of 1749.] This Map exhibits to your Lordship the following Matters of fact. On the face of it we see no delineation of the West Branch of the Fish Kill & the Lines of division of the Lands lying to the Eastward of the East Branch tho' continued across it towards the West Branch remain unfinished and are not butted by any Object. This *res infecta* which however proves no more than a design of the parties to appropriate to themselves were it possible the Lands between the two Branches appears to be a compleat Actual Survey & Allotment of the Lands on the East Side of the *East* Branch. This Map is dated Nov<sup>r</sup>. 8<sup>th</sup>. 1749 41 Years after the date of the patent & before the Settlemt. & improvemt. of any part of it. It speaks of itself as made at the Request of Mr. Robert Livingston & Gulian Verplan [e] k & Company and as being a survey and division of the Tract of Land called Hardenbergh's or the Great patent. It imports that the actual Survey was began on the 7<sup>th</sup> April 1749 & finished the 8<sup>th</sup> of Nov<sup>r</sup>. following which is the day of its date. The Surveyor annexed to it a field Book containing a description of the Lands & form of the Mountains & of the Monuments & remarkable places near which they are placed but all this appears to relate only to the Lands on the East Side of the East Branch. What evidence then can this Map furnish for our Opponents but that it is an actual survey of those Lands & [an] unfinished attempt to appropriate by a random allotment the Lands between the two branches, Nay there is not

the least syllable inscribed on it to shew that it was intended as an actual Allotment of the Lands between the two Branches. On the contrary the whole description in the field Book relates entirely to the Lands on the East Side of the East Branch, For when the Surveyor after having described his several Courses & Monuments from the Bounds of Minisink patent on the Fish Kill or Main branch of Delaware River many miles below the forks of <sup>14</sup>Shehawkin proceeds to ascertain the 4th Monument he describes it thus "At the End of those Courses we placed the 4th Monument on a piece of low land full of Timber, a heap of Stones with a flat Stone standing on the Top marked No. 4 by a Butternut Tree marked with a Cross & No. 4 & four Notches." This Monument stands abt. 2 Chains from the River & 18 Chains to the Southward of the [Popaghtonk] or Branch or Crook of the River. Here it seems the Surveyor did not even dream of the West Branch as having any relation to his Survey but calls the Popaghtonk or East Branch simply *the Branch or Crook of the River*. He then proceeds and describes the 5th Monument to be at little distance up the papghtakan [sic] Branch, the sixth further up the said Branch the seventh at Popatonck Indian Village on the East Side which together with their Indian Treaty in 1743 & their two Indian Deeds in 1746 shews that Popakonk was not on the West Side of the Popaghtonk Branch as they have attempted to make appear in Evidence. The surveyor then proceeds to describe his Courses and Monuments up to the Head of the North Branch of the Popaghkonk & when he comes to the 12th Monument at Paghatakan Village he takes Notice of a large River coming from the East which is the River Tweed the Head of which is doubtless the true Boundary intended by the patent should it be tho't proper to admit of an Extension beyond the forks at Shehawkin.

The 17th & last Monument on the East Side of the Popaghtonk he described thus "At the End of all those Courses We came to the head of Paghatakan Branch where we made the 17th Monument *At the old Corner bounds made by Henry Worster.*" Which old Corner Bounds Ebenezer Worster says is a Spruce-pine Tree that had been made by Henry Worster marked with No. 3 & a cross & several other Spruce Trees marked standing by, Where says Ebenezer Worster We made a large Monument of Stone & marked a Flat one on the Top with No. 17 and a cross & 17 Notches. This Monument stands by a Swampside towards the upper End of the Swamp. The Swamp is about 4 Chains wide & near two miles long & is between two high mountains. Against the upper end of the mountains the monumt. stands. Thus it appears that Ebenezer

<sup>14</sup> Earlier in the Manuscript this river is called the Shewakin. Ante p. 164.

Worster the very person employed in the final Survey & in the Allotment of the Tract in order to a partition well knew and performed his Work under a Sense that the Popaghtonk Branch was the true Boundary of the patent, for what my Lord could he in any other View possibly mean by calling the placing where he fixed his 17th Monument the *old Corner Bounds of Henry Worster*, which evidently was the Corner Bounds made by him when Peter P. Low in the year 1743 attended him in his Survey up to the Popaghtonk to its head where Ebenezer Worster's 17th Monument is fixed and from thence across to the Head of Cartrix Kill. It is notorious that Henry Worster never attempted in his survey to make an Allotment in order to a decision of the Tract. He did no more than run two of the Outlines of the patent in Exact conformity with the Indian Treaty. In doing this he made his old Corner Bounds at the North head of the Popaghtonk which was Numbered 3 the first probably being at the Bounds of Minisink patent and the second at the Forks of Shewakin. And thus does this very Map of Ebenezer Worster which was made the foundation for a random division of the Lands between the two Branches appear clearly to correspond with the most natural Construction of the Words of the patent and the Sense of the original patentees discovered in Hardenbergh's Complaint to the Justice of Kingston ag<sup>t</sup>. the Indians for obstructing them in their Survey of the outlines of their patent in his Request of a permission from the Indians to run those outlines, their stipulation at the Treaty to permit him to run up the Popaghtonk as one of those uplines, the running of it by Worster in Consequence of that Treaty, & in the two Indian deeds to Hardenbergh & Company obtained after that Treaty. In Short my Lord, Ebenezer Worster's Map mentions not a syllable either of the West Branch or the Lands between the two Branches, & contains no Delineation of those Lands or of the West Branch. It appears to be properly & only a Survey of the Lands lying on the East side of the Popaghtonk. Of which [survey] the present proprietors have availed themselves by an Extension of the Lines of Allotment of those Lands so as to make a random Division of the Lands between the two Branches, on a supposed right which they never avowed but by their deed of partition executed between them above 40 years after the date of the patent & contrary to the their own prior & solemn declared sense in their Complaints, Treaties, Indian deeds & Surveys.

Had the Evidence been closed here on the former Hearing the Ballance would have stood Thus; On our Side the natural Construct[ion] of the patent itself, supported by solemn Action of the parties, a public Treaty with the Indians in the presence of a general meeting of the Magistrates, two Indian purchases

clearly explanatory of Our Opponents Sense of the Bounds & repeated Surveys, all corresponding with those other pieces of Evidence; On their side only one insidious attempt by Ebenezer Worster in his last survey to make a survey down the West Branch, & a random partition of the Lands between the two Branches made without actual Survey & at the distance of upwards of 40 years after their patent issued. Which way upon this state of Evidence, the Ballance would preponderate they clearly saw. To cast therefore a little more Weight on their side of the scale they were prepared in the sundry Affidavits wearing the most suspicious Marks of Fraud which need not now be enumerated as their untoward appearance occasioned their total rejection, and this rejection the Opportunity of examining Witnesses *ore tenus* at this day on a single point of fact. But my Lord before I proceed to weigh this part of the Evidence I beg leave to observe (1) that if the persons<sup>15</sup> whose names were subscribed to those Affidavits really did swear to them, their Testimony even had it now come up to what they before swore would be much lessened in point of Credit because a regard to their Reputation would in some Measure oblige them to observe a consistency.

2dly That their Testimony depending on their Memories ought not to have equal Credit with the clear written Testimony on our part, especially as

3dly Their Testimony to have full Weight ought to go back to the Date of the patent which is upwards of 60 years old & this is absolutely impossible &

4thly because what they swear to can only be Matter of Information of a much later date furnished to them by Indians, whose Integrity is too weak to resist a Bribe, and we have proof that the Proprs. of the patent in Question have had it in Contemplation for many years past agt. their own most public, solemn & repeated [acts], to claim the Lands between the two forks which could only be performed by giving the name of the Fish Kill or Main Branch of Delaware River to the Mohawk Branch.

Under the influence of those observations I proceed as summarily as is possible to remark on the oral Testimony of this day<sup>16</sup>:

[Summary of argument for Col. Bradstreet.] The Sum of this important controversy my Lord we take to be this. On our part we have been at the Expense of an Indian purchase regularly made of one of the Six Nations, whose property

<sup>15</sup> The names of Peter Kuydental and Jacob Westfall are given in the margin at this point and appear to be the names of the witnesses testifying.

<sup>16</sup> A page of the manuscript is left vacant at this point to call the attention of the attorney to the oral testimony which may be submitted. He then summarizes his argument for Bradstreet.

we say the Lands in Controversy originally were. Our opponents claim a Right to them solely by patent & Indian purchases made near forty years after their patent, While it has been the invariable practice of the Govt. to make an Indian purchase precede a patent. We found the propriety of our Indian purchase upon a clear admission by deed of the Indians of whom they purchased, that the lands between the two Branches Belonged to the Mohawks, (2) On the known History of the Country, & on public Treaties all which shew clearly that the victorious Confederate Nations with the Mohawks at their Head have gained all the original property of the River Indians by Right of Conquest & that it was customary for the Conquerors to permit the Conquered to remain their Tenants at will but especially denied them the priviledge of Sale. On their part they have only shewn that the Indians or some of them of whom they purchased had merely a Residence on the Lands in Controversy and this Residence is not only consistent with the Supposition of the Right of Property in other Conquerors but can furnish no Argument that is not utterly annihilated by the express allowance in their deed of the Right of the Mohawks notwithstanding their Sale. And even were the two Indian Rights doubtful we have the Countenance of Govt. in a purchase regularly made by us at a great Expense to entitle to a preference.

Again tho' our Opponents ground their Claim of present Title solely on their patent we have shewn that this patent in the manner in which it was obtained was so irregular & unauthorized if not fraudulent as to be null & void, or at least to be justly subject from its Suspicious Circumstances to the most rigid Construction. That were it otherwise circumstanced our Construction of the Words of the patent would be confirmed by the Clearest Rules of Law which manifestly require that every patent granted upon the suggestion & petition of the party shall be construed most favorably for the Crown, that the Fish Kill is the Main Branch of the River below the forks of Shewakin, that at this place it divides itself into two Branches the West Commonly called the Mohawk or Cookhouse Sepoos, and Machach Sepoos, the East the Papataghan or Popaghtonk Sepoos. That therefore the Head of the Fishkill is properly at the forks of Shewakin which Construction is most favorable to the Crown. That should a less favorable Construction be adopted, the Fishkill will then appear to have several heads, that the East Branch consists of a union of three large Streams the North Branch, the River Tweed & the Beaver Kill, that tho' its most distant Source is not quite so northerly as that of the West Branch yet not only from our Testimony but also from that of Mr Cockburn whom our Opponents sent up to

make the Experiment the East Branch is larger swifter & discharges more water into the Main Body. That the Words of the patent "to the Head thereof" does not say which Head & it has several, if the forks at Shehawkin is not the proper Head. That therefore the most favorable construction for the Crown if we are to quit those forks will be furnished by the Head of the Tweed, that even should not the Crown be so favored yet the most northerly source of the East Branch, which Leaves all the Lands in Controversy vacant ought undoubtedly to be the Boundary. That this last Construction falls in with the clearest Weight of Evidence from without, & besides other proof, with their Indian Treaty their two Indian Deeds, their repeated Surveys and particularly their Map of the last Survey, & with their full & declared Sense & Construction for at least forty years after the date of their patent.

To stem all this Torrent of Evidence they have opposed nothing more than one attempt by Ebenezer Worster in his last survey to make a stolen survey of the West Branch contrary to the parts of the Treaty entered into with the Indians in presence of a large Assembly of Magistrates; their random partition after all those Transactions, which in itself is not Evidence, & finally the parol, [i. e., verbal] Testimony of some Witnesses speaking from their Memory about facts gained only on Hearsay & of much later date than the patent and probably gained entirely either directly or indirectly from Indians whose words are of little Weight & who may have been, as they all on any occasion may be, bribed to propagate forged names of places to Suit the Designs of a party; and finally as this lose [loose] heresay & uncertain Evidence stands opposed to the natural face of the Country, the Testimony of other Witnesses, the Words of the patent in the legal Construction, and a train of solemn public & notorious facts furnished by our Opponents & most of them standing on Record as a lasting Memorial of their Truth we flatter ourselves that the Ballance of evidence is clearly in our favor & if so, as the most liberal Construction that can be given to the patent in Question will confine our Opponents to the northern most head of the Popaghtonk Branch in which Case the Lands in Controversy must be vacant, We humbly pray that we may be favored with his Majesty's Letters patent for them upon the usual Terms & Conditions.
